FROM THE DIRECTOR

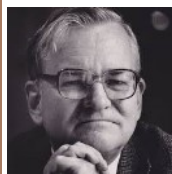

EWTN's NIGHTLY NEWS had an interview with Seton alum (2008) and seminarian Sean Koehr. You can hear it on this link:

OUR ANNUAL PILGRIMAGE to the Shrine of St. Elizabeth Ann Seton in Emmitsburg, Maryland is Sunday, May 6. The pilgrimage begins with each family saying the Joyful Mysteries of the Rosary on the way to Emmitsburg. Plan to arrive at the Basilica by 10:30, at which time we pray the Luminous Mysteries as a group. Mass is at 11:00. Please dress appropriately for Mass.

After Mass we have a picnic at the nearby picnic grounds, with each family bringing its own picnic. Bring sports equipment too. You may change into casual but modest clothes (no short shorts, no sleeveless shirts) for the picnic.

We then go to the Lourdes Grotto for the Sorrowful Mysteries at 3:00 PM. On the way home, each family prays the Glorious Mysteries. This is always a grace-filled day. I hope to see all of you there.

WARREN H. CARROLL SCHOLARSHIP: Each year I award a \$500 scholarship in honor of Dr. Carroll to a Seton graduate who is currently attending Christendom or will enroll there in the fall. EROS: A CONCERT WITH WORDS MONTELIONE SOLO ALBUM

"The artist has a special relationship to beauty. In a very true sense it can be said that beauty is the vocation bestowed on him by the Creator in the gift of "artistic talent". [...] Those who perceive in themselves this kind of divine spark which is the artistic vocation-as poet, writer, sculptor, architect, musician, actor and so on-feel at the same time the obligation not to waste this talent but to develop it, in order to put it at the service of their neighbour and of humanity as a whole. Society needs artists, just as it needs scientists, technicians, workers, professional people, witnesses of the faith, teachers, fathers and mothers, who ensure the growth of the person and the development of the community by means of that supreme art form which is "the art of education". --St. John Paul II

For those of you who were a part of the Seton family and participated in the band and/or musical, then you might remember Mr. M. He was the band director and producer of the musical for many years. Fast forward, he now has a doctorate in music (now Dr. M) and is a college professor, all while performing nationally and internationally. Looking toward the future, he is trying to create a better life for his family, which means that instead of looking for gigs that can ultimately be unstable, he'll be going into business for himself to create his own performance opportunities.

The first step in this process has already been completed! Dr. M created a brand-new art form that is an inversion of a typical play with music. In a nutshell, the new genre has been dubbed by Dr. M as "a concert with words." Envision a type of book-on-tape, but with an instrumental soundtrack that propels the storyline. Dr. M is traveling and performing it already, and it's ready to be recorded into a studio album! But, he needs help before the project completely stalls.

This is where you come in! There's a quote above about how St. John Paul II felt about artists and musicians, and Dr. M echoes these sentiments about the necessity of providing beauty through music to our world, and feeling a vocation to do so.

He could really benefit from the Seton community's help in supporting him, both as he casts his net 'out into the deep,' and also to give him an opportunity to provide beauty to others through new artistic works that are wholesome, unique and lovely. You can tangibly help in one of 2 ways:

1. If there's anything you can contribute, a Kickstarter campaign has been established to get him going. Kickstarters are "all or nothing," so the project will only be funded if it reaches its entire goal by 10pm, on May 20th, 2018. This is very soon! Please consider contributing to the kickstarter to obtain a CD of the music, or even a digital download. More info is at this link: <https://www.kickstarter.com/projects/1983251474/eros-a-concert-with-words-montelione-solo-album/>
2. Whether or not you are able to contribute financially, please spread the word on your social media about this project and new genre of music, and share the exact kickstarter link to Facebook, Instagram, Twitter, etc.

If you'd like more information or would like to reach out to Dr. M, his email is montemusic@gmail.com

Lisa Bailey Recovery

Lisa went to the hospital with what she thought was a kidney infection on Wednesday, April 18. She was correct, but had no idea how severe things were. She was admitted instantly with her left kidney filled with infection and stones that had turned septic. The next morning, she was taken to surgery where they put in a stent. Unfortunately, they were not able to remove the stones as that was way too great of a risk. The stent was put in place to allow the infection to drain. On top of the kidney infection, stones, dehydration and another infection, this all went into her bloodstream causing a system-wide infection. After the surgery, she was still in a considerable amount of pain. As the fluids began to rehydrate, her breathing became more and more difficult. Throughout the night, they had to put her on a bipap machine which was doing most of her breathing for her. A chest x-ray showed that both lungs were 90% filled with infection causing double pneumonia. She endured the machine for a few hours, but was not able to continue trying to breathe. The doctor immediately decided that she would have to be intubated and sedated in order for her body to get the break that it needed. She remained like that until Sunday afternoon before they decided to remove the tube. She had more bags of medication hanging on two poles than I had ever seen for one person.

Lisa is making small positives strides now, but the pneumonia will take her a while to recover from. She is still in the Critical Care Unit, hoping to move into a step-down unit this week. AND, we haven't even taken care of the reason she went to the hospital in the first place. She is facing at least one more surgery, possibly two, but those can't be addressed until she is well enough to handle them. As her sister, I can tell you it was very scary to see her go through this!! The fear of her not coming off of that breathing machine was awful! I sincerely hope I never, ever have to witness that again.

Like many of us, Lisa works very hard to make ends meet, often living paycheck-to-paycheck. During this recovery time, she is not able to move at the pace that is normal for her, which is causing her an incredible amount of stress over how to make ends meet. I would like to remove some of this stress and allow her to focus on her health and recovery. I would appreciate any donation you could make to assist Lisa during this difficult time and to prepare her in advance for recovery time for the upcoming surgery.
