

Requirements for Experimentation at Seton

Using human participants recruited at Seton School is a privilege reserved for those science students who can follow these guidelines.

1. **Full approval** of science fair project must be on record.
2. **Informed consents** for participants must be prepared.
3. Prior arrangements with teaching staff (science teacher) must be completed.
4. If a classroom is needed, a **reservation** of an empty classroom must be discussed with the office staff at CCC.
5. Student's adult sponsor or designated adult replacement **must be present** during testing at all times.
6. Student's adult sponsor must ensure proper care of classroom and Seton School's property.
7. Human participants **may not be late for class** or leave class early to participate in study.
8. Adult may arrive early and help set up for study, and may stay afterwards to clean up if student investigator must get to class.
