

SETON STUDENT BODY

“LET’S KILL 2 FLIES WITH ONE SWAT”

SOUNDS BETTER THAN KILLING 2 BIRDS

Since you have to come to school and return textbooks why not bring an

item for expectant mothers who visit,

Mother of Mercy Free Clinic in Manassas.

There's a drop off box in the front office.

The clinic could use food for pregnant moms including canned meats (tuna, chicken, salmon), beans, lentils, oatmeal, canned vegetables, dry/evaporated milk and protein bars. You can also bring clorox wipes, hand sanitizers, calcium supplements, vitamin C, and zinc.
