

SETON'S THERAPUTIC SERVICES AND PRACTITIONER REFERRALS

This is a list of professional services and counselors of our faith who were found to be very helpful by other Seton parents. These service providers seek to integrate the fullness of the Catholic faith with the best mental health practices covering a broad range of psychological, emotional, social and educational problems. Please note: the decision on whether or not to engage professional counseling is strictly the parent's prerogative and Seton School does not officially recommend this list. Other additional resources are listed at the end.
